

**Joshua Thornton**  
[jshthornton@gmail.com](mailto:jshthornton@gmail.com)

*I am a UI/UX developer who takes pride in deploying efficient, stable and secure code that is easily maintained by non-technical people.*

*I enjoy working with a wide variety of development tools to create full-stack applications utilizing numerous languages and frameworks.*

*I like using programming to solve problems and I take a measured logical approach to tackling issues. I feed off the input that one receives when working within a team and enjoy the challenges that other people with different perspectives can bring.*
